This book sadly has no affiliation with NASA.  
No animals were hurt in the creation of this book  
and no cats were actually fed pizza.

Science, Technology, Engineering, and Math  
give you the tools to make anything you can imagine.

**Made with love for all cats in the  
universe.**

...

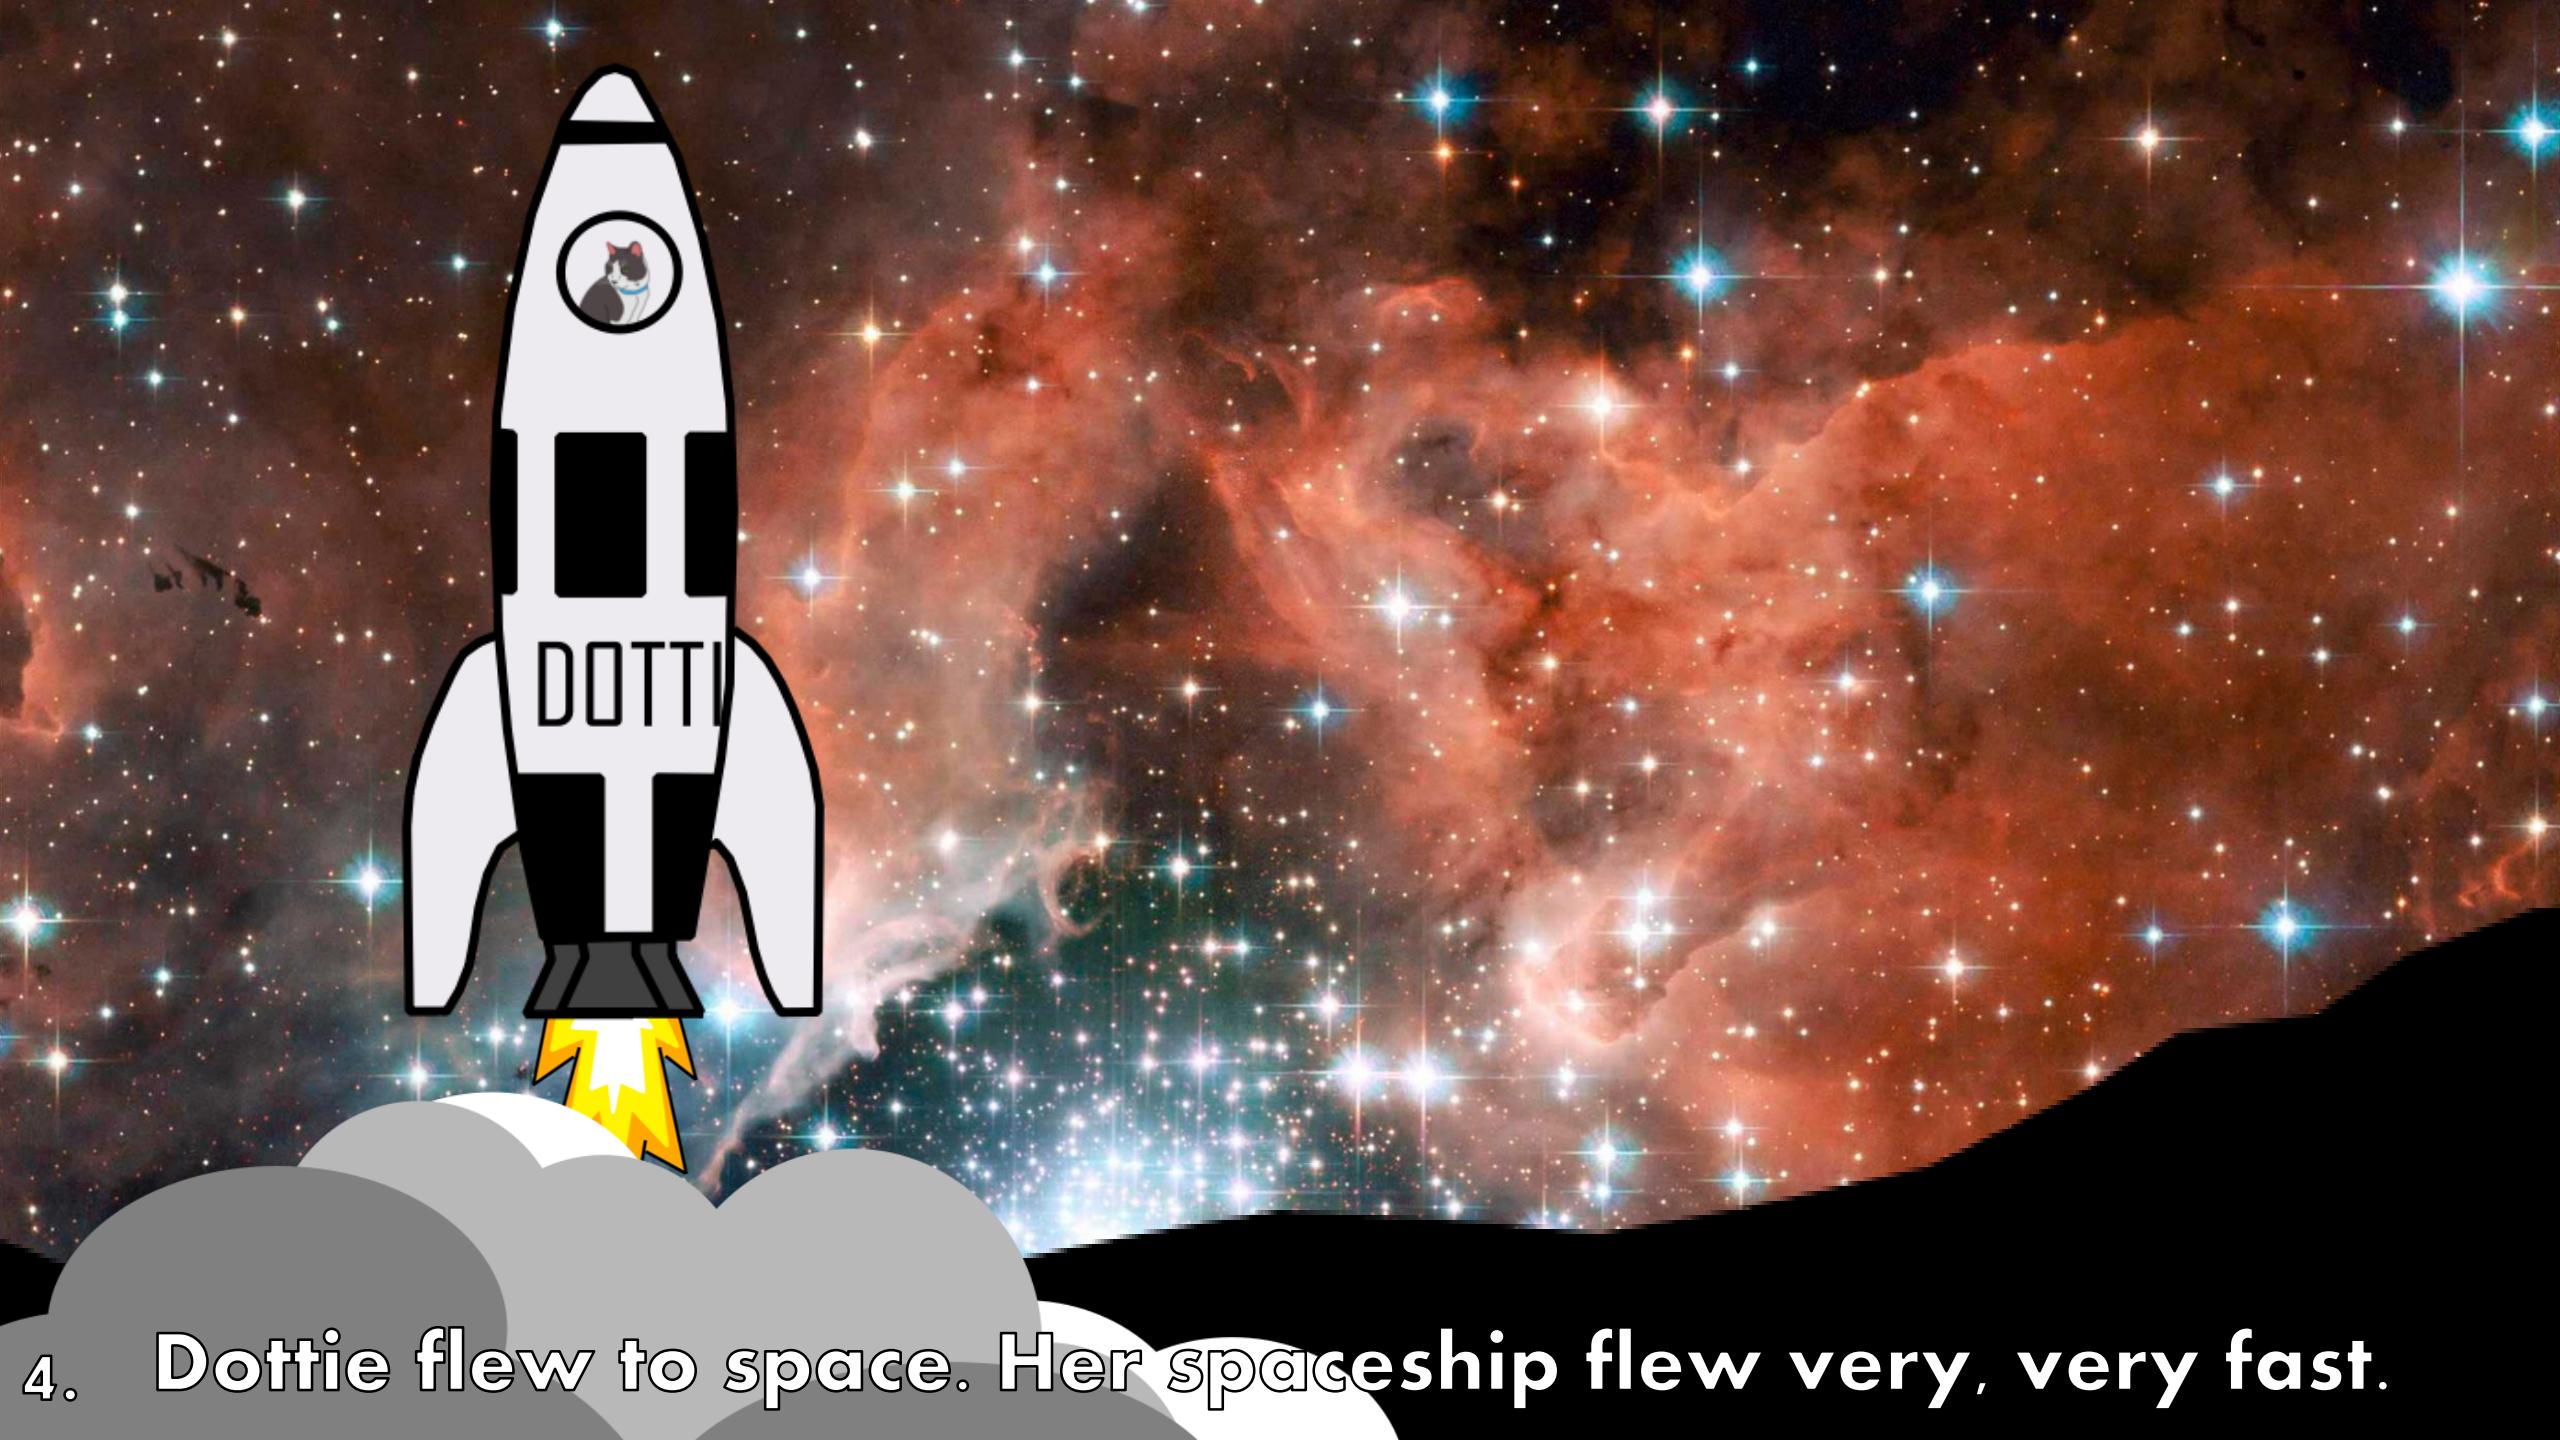

**And for everything else in the  
universe.**

**Dottie was a good cat.  
She was a curious cat.  
Dottie liked looking at the  
stars.**

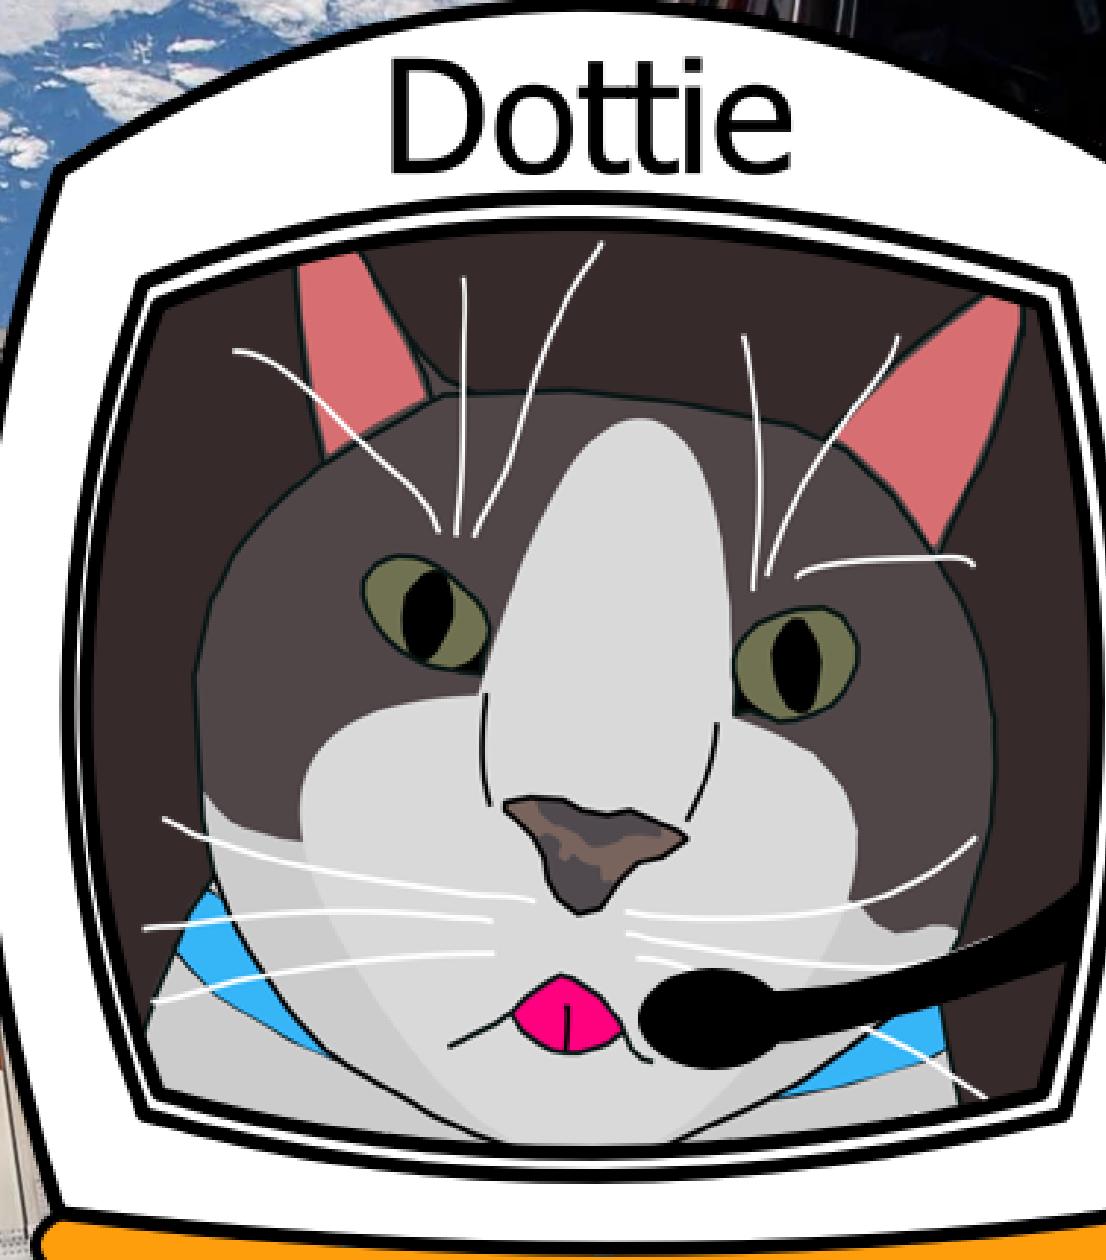

**One day, Dottie decided she wanted to get a closer look at the stars. She built a spaceship out of empty cat food tins.**

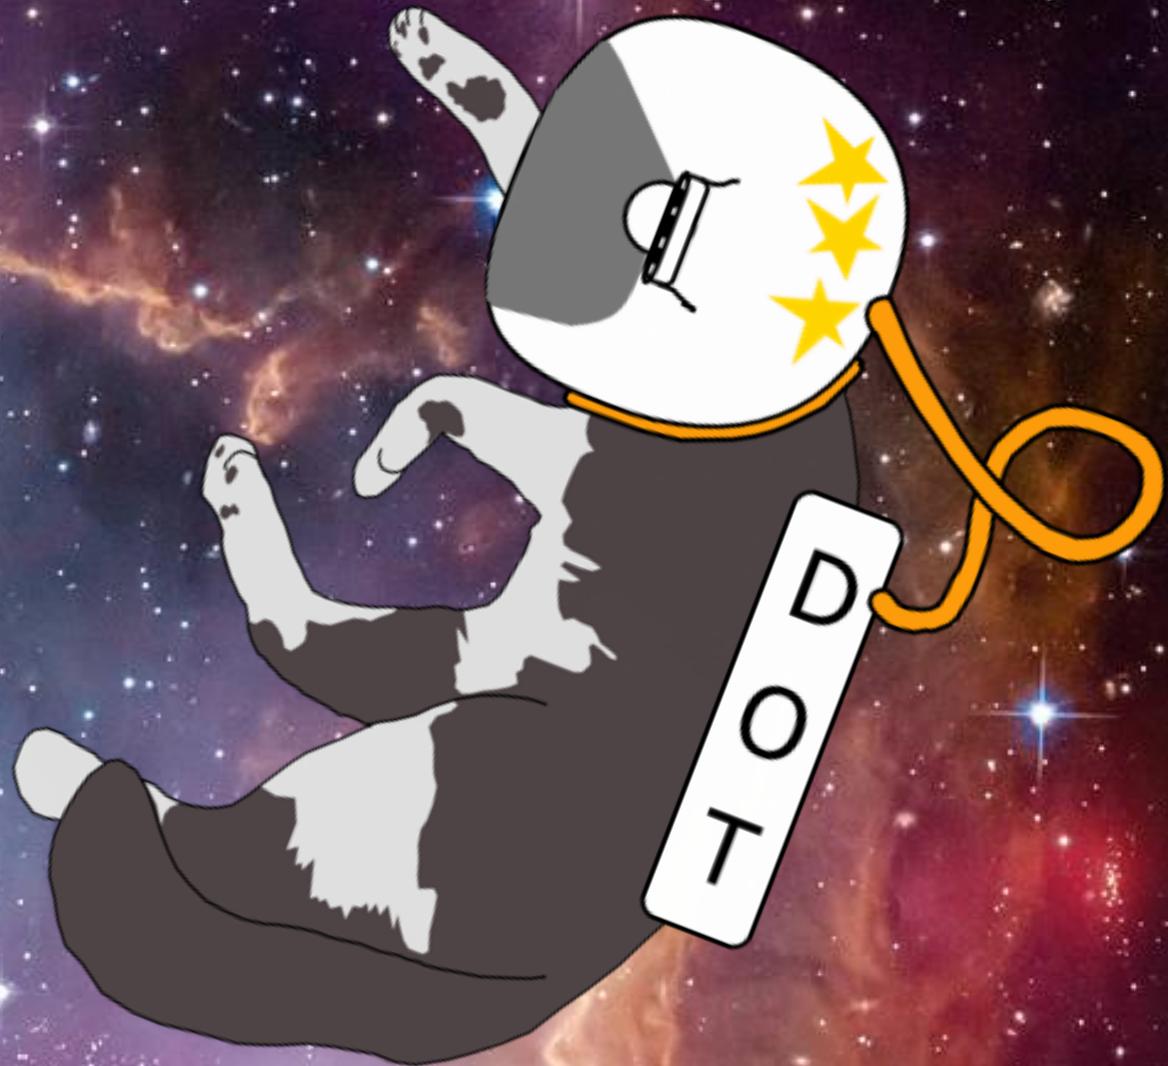

4. Dottie flew to space. Her spaceship flew **very, very fast**.

Dottie  
loved  
looking  
at planet  
Earth from  
her  
spaceship  
window.

Dottie was amazed by all the stars she saw and wondered how they got there.

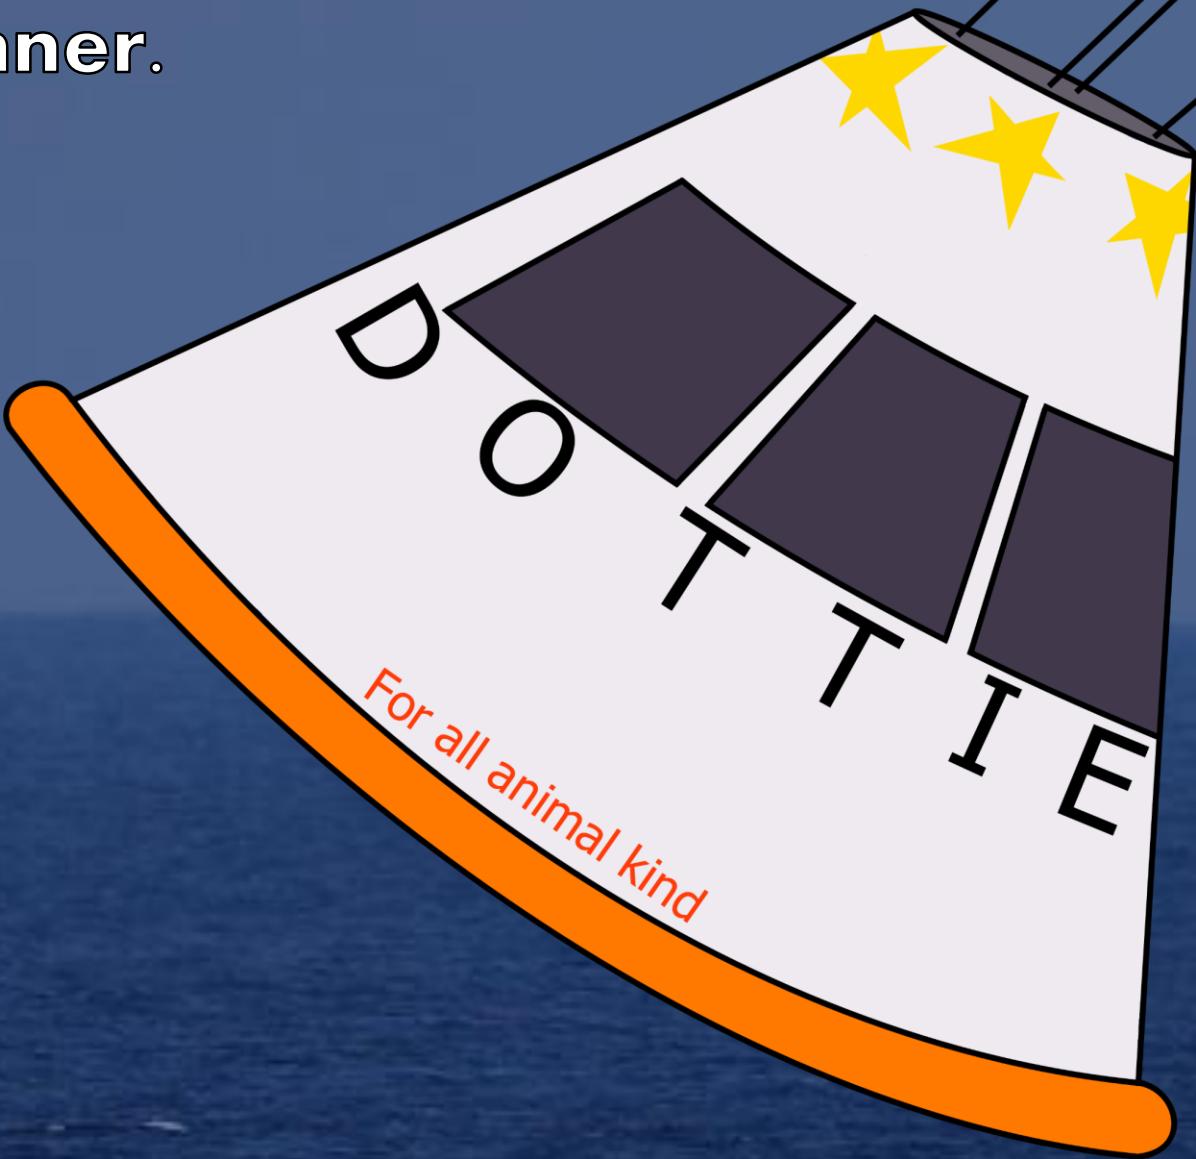

But then...

...Dottie started to get hungry.  
She started dreaming of  
dinner and wished she had  
packed a snack.

Dottie decided it was time to head home and see what mom was making for dinner.

**Mom, is dinner ready? I'm  
very hungry after a big day of  
adventure!**
